Dear [Mr./Mrs./Ms.] [Manager's Name],

I am pleased to apply for the position of UI/UX Designer at [Company Name], which was advertised through my college's placement programme. I am enthusiastic to offer my creative abilities and passion for user-centred design to a vibrant company like [company Name] as a recent graduate with a degree in UI/UX Design.

I've had the chance to work on a variety of design projects throughout my academic career, improving my abilities in user research, wire-framing, prototyping, and usability testing. I've honed my visual sense as well as my grasp of user behaviour and interactions. Designed the ample of mobile apps and the websites that garnered great feedback from both colleagues and teachers was one of the highlights of my collegiate career.

We optimised the app's UI through iterative design and user testing, which resulted in higher user engagement and satisfaction. I am excited to join a company that encourages cooperation and creativity. Throughout my education, I actively engaged in design workshops and group projects, which honed my capacity to collaborate with varied teams to reach common goals.

As a lifelong student, I am devoted to remaining current on design trends and technologies. I've taken online classes and visited professional conferences to broaden my expertise and stay up with the ever-changing area of UX design. I am convinced that my excellent design abilities, attention to detail, and commitment to user-centric solutions will make me a significant contribution to [Company Name].

Thank you for taking the time to examine my application. I eagerly await the opportunity to explain how my qualifications connect with [Company Name]'s mission and contribute to your team's success.

Sincerely,

Nidhi
